EDUCATION

Macau University of Science and Technology (MUST)

Bachelor of Science in Pharmacy | Sep 2021 – Jun 2026 (Expected)

- **GPA:** 3.26/4.0 (*Top 25%*) | **Research GPA:** 3.80/4.0 (*5 Key Courses, RANK 2/50*)
- **TOEFL:** 98/120

Relevant Coursework: Clinical Pharmacology (A+), Medicinal Chemistry (B+), Biopharmaceutics (B+), Pharmaceuticals (A+), Clinical Pharmaceutics (A+)

RESEARCH EXPERIENCE

State Key Laboratory of Quality Research in Chinese Medicine (SKL), Macau

Dr. Neher's Nobel Laureate Biophysics Laboratory for Innovative Drug Discovery

Research Assistant | Nov 2021 – Apr 2025

- **Neuroinflammation & Drug Discovery:** Spearheaded projects on ischemic stroke therapeutics, optimizing lycorine's anti-inflammatory effects via NF- κ B/p65 pathway inhibition. The cumulative duration exceeds 5,000 hours.
 - Under the guidance of the supervisor, utilized available laboratory resources to assist in designing cell and animal experiments
 - Collaborated with team members to construct the rat MCAO (middle cerebral artery occlusion) model and perform tissue sampling
 - Independently performed all subsequent animal sample experiments, including processing and analysis
 - Independently conducted all cell-based experiments, including sample handling and raw data analysis
 - Participated in the result discussion and data interpretation
 - Organized materials and led the manuscript writing
 - Co-authored 2 **SCI papers** (cumulative IF: 5.6); presented findings at *Drug Discovery 2024 (Boston)*.
-

PUBLICATIONS

1. **Li Y** , Zheng W, et al. (2025). *Lycorine Pre-Treatment Alleviates Microglia Inflammation After Cerebral Ischemia by Inhibiting NF- κ B Phosphorylation*. *Brain Sciences* (IF: 2.8).
 2. Li X, **Li Y** , et al. (2024). A comprehensive strategy of lipidomics and pharmacokinetics based on ultra-high-performance liquid chromatography-mass spectrometry of Shaoyao Gancan Decoction. *Journal of Separation Science* (IF: 2.8).
-

Poster Presentation

- Poster presented at **Drug Discovery 2024 (Boston)** entitled “Molecular Insights into Traditional Chinese Medicine Compounds for the Treatment of Ischemic Stroke,” mentored by Dr. Eric Wang
-

- **TECHNICAL SKILLS**

- **Wet Lab**

- Cell culture (primary/immortalized), cell viability assay, MCAO surgery, IHC/H&E, ELISA, HPLC, RT-qPCR, Western blotting
- Rat MCAO model surgery (middle cerebral artery occlusion)
- TTC staining for infarct volume measurement
- Multiplex cytokine profiling (BD FACS Aria III flow cytometry)

- **Data Analysis:** Python (*Michigan Certified*), ImageJ, GraphPad Prism, SPSS.

- **Languages:** English (Professional), Mandarin (Native).

- **Management skills**

- **Lab Project Management**

- Project Planning & Execution
 - Resource Optimization
 - Compliance & Safety Oversight
 - Team Coordination & Communication
 - Data Integrity & Documentation
-

PROFESSIONAL EXPERIENCE

China Children's Medical Center (Shanghai)

Hospital intern Physician | Aug 2025 – Apr 2026

- As planned, I will be heavily involved in assisting the pediatric team with patient intake, conducting ward rounds and performing basic diagnostic and treatment procedures.

Shenzhen Yantian Hospital

Pharmacy Intern | Jul 2024 – Aug 2024

- Audited 100+ daily prescriptions for drug interactions.
- Drafted 5 reports on opioid stewardship.

Shenzhen Polytechnic University

Lab Technician Intern | Jul 2023 – Sep 2023

- Engaged in data analysis and graphing using GraphPad Prism software. Through the component-target-pathway approach, we predict and discover potential active compounds and action pathways.

Shenzhen Dakewe Biotech Co., Ltd.

Lab Technician Intern (Pathology) | Jul 2023 – Aug 2023

- Processed over 50 tissue samples to compare the performance of a novel staining reagent developed by the company against the target product using hematoxylin and eosin (H&E) staining and immunohistochemistry (IHC), including samples from lung, bladder, and pancreatic cancers.

AWARDS & LEADERSHIP

- **College English Elite Class** (Top 10%) | M.U.S.T, 2023
- **Best Poster Presentation** | Drug Discovery 2024, Boston

ADDITIONAL

- **Workshops:** AI in Drug Discovery (*XtalPi*, 2025), Genomics for Precision Medicine (*BGI*, 2024).
- **Hobbies:** Competitive fencing (*Epee*), badminton.
